## Routes in the **natural** environment of Estellencs

# Routes in the **natural environment of Estellencs**

Heritage, tradition and nature make estellencs a place in the Serra de Tramuntana that truly must be visited. Within this environment, still has that touch of adventure, offering a territory full of hiking routes and assets combined with Good quality establishments.

Cala Estellencs is a small cove where you can appreciate the beauty of this coastline eroded by the force of the waves, as well as the "escars", refuges for traditional fishing boats.

The combination of town and nature, marked by the closeness of the sea and mountains, helps us to get to know Estellencs, enjoying the experience and savouring the history, culture and nature that reflect the true essence of Tramuntana.

# **Es Puntals**

This route follows a very similar way to the route of Camí Real and Planícia, the difference is that this path goes uphill through the Coll d'Estellencs until reaching the Pas de S'Encletxa and the Puntals de Son Fortesa.

Later on, along the same way uphill, we go downhill back to the Camí de na Jovera to the north following the route of the Camí Real and Planícia. Our version of this track differs from the original route as it does not reach the Casas de Planícia. At Comellar de Planícia, we turn left to take the Camí de les Cases until we arrive at the crossing with the GR221 path, that will take us back to Estellencs.
